**THE FOLLOWERS OF SANT SHRI ASARAMJI BAPU SUPPORT  
SANATAN SANSTHA!**

It's the matter of deep concern to us that recentrant and rave by the hypocrite rationalist lobbies to pressurise the polity to seek the ban onSanatanSantha, is a jinx to the nation. We at SAFSAC as unitary body of SantShri AsharamJiBapu's followers, strongly oppose in a stentorian voice, such notion building exercise by this echelonagainst Sanstha. We also request humbly to the state authorities and agencies not to pursue the matter under the influence and on vivid imagination of false allegations. The ban is not only unlawful as curtailing the right of freedoms someoneempowered by the constitution of India but also illaudable by looking atSanstha'scontribution in social welfare activities. We, further urge to Govt to hold a fair inquiry / investigation to reveal out the aspect of money links, vested motives and find out the involvement of NGOs & political outfits who allegeSanstan's role in murder of Late Shri Govind Pansare, CPI Leader.

There is no doubt in saying that the work done bySanstha such as revealing the corruption in religious institutions, pursuing the law reforms, upholding the issue of social injustice, the issue of damage to environment by illegal slaughter houses, relief work in natural calamity hit areas i.e. in Nepal earthquakes and expose of several scams and exchange of money with foreign partners of NGOs who run the rationalist movement, so these endeavours have been penetrative in the eyes of its opponents those who find the hurdles in their ill-will of creating the territorial and social instability in various parts of country.

All Anti-national and Anti-Hindu elements disguised under the facade of

....Contd

Secularism and Rationality know very well in their minds that with the emergence of SanatanSanstha, the extinction of their influence on the society begins and it is the fear which has forced them for such malign attempts without any solid proofs against Sanstha.

It is the so called rationalist lobby of Dr. ShyamManav, the founder of ANS, AnandPatwardhan - controversial film maker, Nikhil Wagle - journalist with political & religious hatred narratives, Madhuresh Kumar of National Alliance of Peoples Movements; Dr Abraham Mathai from Indian Christian Voice and others are trying to portray Hindu organisations, especially SanatanSanstha, as extremist organisation from very outset but simultaneously one must look at the background and portfolio of such NGO activists who have been running every possible and sensitive anti national activities such as their support was seen in YakoobMemom's sentence, Vice President Hamid Ansari's remarks, the protests against Ram Mandir, Beef ban issue and other matters too. Some media organisations like Huffingtonposts and Indian Express ventures are deliberately targeting the SanatanSanstha's literatures. Their comments and references on the literature are all ridiculous! They are not checking all together variety and vastness of the literature that is being produced by for social welfare and the pieces of the literature which are being targeted, have enough scientific evidences.

Further, one can observe the traces of yellow journalism in this whole matter. The desperation of TimesNow in chasing the SanatanSanstha premises through spy cameras is very censurable. Times Now channel citing its own concocted stories by Mumbai Mirror while ignoring the actual verdict passed by court of the law in previous matter of whether SanatanSanstha's involvement in bombing where

SanatanSanstha's role was not found at all, this shows the morbid state of Journalism. Nikhil Wagle edited ABP News programme “OperationSammohan” was run on false story without capturing the statement of girls who were featured in show was another example of biasness in this row.

Why should SanatanSanstha be banned? If there's anything that could be banned then it's only these people who have been carrying out anti-national activities, breaking social integrity in the name of a hidden agenda.

We have seen, in previous instances too, SanatanSanstha has been victimised of political agenda and is being defamed relentlessly under the propaganda. Therefore SAFSAC on the behalf of followers of BapuJi shows solidarity with SanatanSanstha& Hindu JanjagrutiSamiti and recount the statement of PujyaBapuJi who bravely announced few years ago to take on every rival who was crying& thumping the chests for the ban on SanatanSanstha.
